...speaking of the life of a man who knows that the Dear Customers and Friends, ...speaking of the life of a man who knows that the world is not given by his fathers, but borrowed from his children who has undertaken to cherich it and do it wona is not given by nis jamers, our ourrowed from n children; who has undertaken to cherish it and do it chunen, who has undertaken to chertsh it and ao it no damage, not because he is duty-bound, but because he loves the world and loves his children no aamage, not vecause ne is amy-vouna, c he loves the world and loves his children... Wrote Wendell Berry in 1971.

When discussing education, we often think of educating our youth, but paradigm-shifting eunanns om yourn, om paramsm-snijuns discoveries are made every day. New medications are developed, sub-atomic of and are described, and the migratory routes of our unrelanting and the migratory routes of our unrelenting are elucidated, all because of our unrelenting thirst for knowledge and desire to continue our

As articulated by the authors of this current newsletter; a transmitter can be a highly effective instructional tool.
