2018 CHRISTIANE HOWEY RISING SCHOLAR AWARD

– CALL FOR ENTRIES –

In addition to granting many educational awards for transmitters over the years, Christiane Howey quietly found ways to help young researchers and start-up programs. To honor Chris, and to carry on in her spirit of generosity, we are proud to offer an annual award in her name: the Christiane Howey Rising Scholar Award.

Proposals for the 2018 Christiane Howey Rising Scholar Award will be accepted through October 31, 2017 and reviewed prior to the publication of the Winter 2017 issue of Tracker News. The award recipient will be notified in late December to schedule a production slot. Proposals will be judged by an internal committee. Applicants are encouraged to include an educational component in their research, but this is not required.

This award is intended to provide researchers who are starting out their careers with the means to get projects off the ground. It will provide the recipient with five transmitters of his/her choice. Proposals should include an outline of the project indicating the scope and expected outcome. We are looking for a maximum of 5 pages. Please include a timeline and let us know what model of transmitter you are interested in using. The recipient will be responsible for any Argos (or GSM) data distribution costs and any duties/taxes. For more information, please email support@microwavetelemetry.com or visit our website.
